Welcome!

Congratulations on your purchase of the Pellet-Q450™ Sear Station™. We sincerely appreciate your business!

How It Works

The FireCraft® Pellet-Q450™ Sear Station™ allows you to sear steaks, burgers, or just about anything with your Pellet-Q450™! Made of highly conductive hard anodized aluminum, the Sear Station™ absorbs heat from the grill then amplifies it. Because the heat quickly radiates across the entire grate, the whole Sear Station™ becomes a high-intensity grilling surface that produces perfect sear marks and vaporizes drippings on contact.

Requirement for Correct Heat Diffuser Plate

In order to use the Sear Station™, your FireCraft® Pellet-Q450™ MUST have a diffuser plate with an Open Flame Port. If the serial number of your Pellet-Q450™ is #00123 or lower, or has a solid diffuser plate with no Open Flame Port, DO NOT attempt to use the Sear Station or the Open Flame Setting on your AccuTemp™ Electronic Control. Please call FireCraft® Customer Service for assistance at 800-745-6109.

Open Flame Port

WARNING

ALWAYS:

USE THE SEAR STATION WITH AN APPROVED FIRECRAFT DIFFUSER PLATE WITH AN OPEN FLAME PORT. IF YOUR GRILL DOES NOT HAVE A DIFFUSER PLATE WITH AN OPEN FLAME PORT PLEASE CONTACT FIRECRAFT CUSTOMER SERVICE FOR ASSISTANCE AT 800-745-6109.

How to Install

Make sure that your Pellet-Q450™ is turned off and is completely cool. Remove the small left grill grate from the cooking chamber. Next, remove the small metal cover from the Open Flame Port.

The Sear Station™ grates have male and female edges. Interlock the two panels by fitting the male and female edges together then lay the Sear Station™ inside the grill with the rails up where you just removed the small left grill grate.

How to Season

Seasoning your FireCraft® Pellet-Q450™ Sear Station™ grates will provide better cooking results and create a near-nonstick surface. Before cooking on the Sear Station™ for the first time, apply grill spray or canola oil to the raised rails.

Tip: To help the seasoning build up, try grilling fatty foods the first few times and avoid over-cleaning the grates.

Cleaning Your Sear Station

Clean the top of the Sear Station rails while the grill is warm using a standard grill brush. To preserve the seasoning on the Sear Station™, DO NOT aggressively brush the rails. Use the provided tool to remove debris from between the rails. It is safe to occasionally clean the Sear Station™ in hot soapy water. Your Sear Station™ is NOT dishwasher safe. DO NOT use oven cleaner to clean your Sear Station™.
